

CCDC Inject

INJECT NAME	46 Assess and plan Windows patch updates
INJECT ID	WINPATCH01

INJECT DESCRIPTION:

We need to validate whether our Windows hosts are missing critical security patches. Following recent security events, it's essential that all systems are kept up to date.

Provide the output from "Get-HotFix" (or "systeminfo") showing currently installed updates and your plan to identify and apply any missing critical security patches if necessary.
